COASTAL CANTINA

*The inspiration* behind our restaurants is cruising down the Mex 1 Highway, veering off towards the ocean on a small dirt road and manifesting perfect surf in the cove it leads to. The entire experience fueled by the light, fresh flavors of the Baja peninsula served up in the little cantinas that dot the coastline (and maybe just a bit of tequila)! Until your next big adventure, we hope to provide you with the perfect little escape everyone needs from the daily grind of life!
